Research Title: Togetha: A Personalized Academic Platform with AI Tutoring Assistant 'Rina' for Health Science Students at the University of the Immaculate Conception

Date	Members Present	Accomplishments	Suggestions
July 22, 2025	Bantawig Corpuz Gultiano Papacoy Yaco	- Presented and discussed the results of the pre- and post-surveys with the adviser. - Reviewed the introduction section, focusing on the phrasing used and the clarity of the comparison tables. - Followed the adviser's example formatting for the revised comparison tables. Applied the format to Tables 2–3.2: • Table 2 – Note-Taking Tools Features and Pain Points/Limitations • Table 2.1 – PDF Reading Apps Features and Pain Points/Limitations • Table 2.2 – Task Management Tools Features and Pain Points/Limitations • Table 3 – Tool Feature Comparison Table for Note-Taking	- Simplify and restructure the comparison tables to make them more readable and relevant to the local student context. - Consolidate similar tools and remove apps not widely used by respondents. Ensure the introduction explains clearly how the survey results informed the selection of features for the proposed system. • Continue using the ✓ / X comparison style to make features easier to analyze. • Keep Pain Points concise and student-centered, based on survey answers. • Ensure consistency in formatting across all comparison tables.
